

# Stories that would help Shirley

Shirley has come along way to try to find her real self and these stories I think will help her really find out who she is. I think that one of the stories that would help shirley is The Changeling. I think that this story will be good for her because Shirley has changed a lot over her time in America. In the Changeling the man changed a lot with his appearance. But they both didn't change fully, because shirley is still chinese and she always will be and the man is still the same person that he was. I think another good story for Shirley is We Are All One. We Are All One is good for Shirley because in We Are All One the man is nice to the animals on his journey, and In Shirley's case she is nice to all people even if other people are not nice to her. One story that I think is really good for Shirley is Dream Flyer. Dream Flyer is good for Shirley because in Dream Flyer the girl loves her brother and dad so she goes and helps them when they are in trouble. This would relate to Shirley because Shirley loves and misses her relatives back in China and she writes to them so she doesn't forget them and they don't forget her. A very good story for Shirley is Slippers. Slippers is good for her because in Slippers even though the dad is dead he still loves his daughter and his spirit visits her every night. This is good for Shirley because Shirley's family still loves her a lot even though she is all the way in China and Shirley loves them because her relatives even though they are all the way in China. In my opinion all of the stories that I wrote about are very good for Shirley because they can really relate to her. These stories are very good for Shirley because these stories have helped Shirley try to find out who she is. Trying to find that will bring her one puzzle piece closer to finding her true identity.
